BUSH ROSES

Double Field Grown

Columbia, Rose-pink, Tea	35c
Frau Karl Druschki, White	45c
General Jack, Red	45c
Gruss An Teplitz, Red, Tea	35c
Mrs. Aaron Ward, Yellow, Tea	35c
Paul Neyron, Rose-pink	45c
Pres. Hoover, Orange and Gold	35c
Radiance, Red, Tea	35c
Talisman, Salmon-pink, Tea	35c

HARDY BUSH ROSES

These require no winter covering.

Conrad F. Meyer, Large, Double, Pink	50c
Dr. Ackener, Buff and Rose, Double	50c
Hansa, Double, Red	50c
Harrison, Double, Yellow	50c
Sir Thomas Lipton, Large, Double, White	50c
Vanguard, Large, Double, Orange-salmon ..	50c

CLIMBING ROSES

Crimson Rambler, Red	35c
Dr. Van Fleet, Large, Flesh-pink	50c
Excelsa, Rosy-red	35c, 50c and 75c
Paul's Scarlet, Bright Red	50c

HOW TO PLANT AND CARE FOR ROSES

Roses for best results should be planted deep in good, rich soil, and cut back to within 8 or 10 inches of the ground. There is nothing gained by leaving a long top on a newly planted rose. The disturbed roots have not the strength to supply the old top, but when cut back and well soaked with water the sprouts soon appear. Many roses which are thought dead will soon start growing if treated this way. They require much watering until they start growing.

Roses with the exception of the hardy Rugosa varieties should be cut back each spring to within a foot of the ground. The hardy Rugosa Roses require no covering in the fall. Nearly all other varieties require winter protection. Cover with straw or leaves and burlap, or bank them up with dirt or peat soil (humus). Climbing roses should be taken down, the strands tied together and laid flat on the ground, weighted down, and covered with straw or peat.

HARDY VINES

Beta Grape	25c
Bitter Sweet	35c
Clematis, Paniculata, White	50c
Engleman's Ivy	25c
Honeysuckle, Red Trumpet	45c

HARDY SHRUBS

Barberry, Japanese, 18 to 24 in.	\$.45
12 to 15 in.25
Dozen	2.50
Barberry, Red Leaf, 12 to 15 in.45
Buckthorn, 18 to 24 in.12
Dozen	1.20
Per hundred	9.00
12 to 18 in.10
Dozen	1.00
Per hundred	7.00
